* Rate quoted is the indicative minimum lending / financing rates in the preceding 12 months.

Lending / Financing rates charged are assessed against multiple criteria including:

- **Credit history of the borrower / customer and key management / guarantors**
- **Financial history and quality of financial reporting**
- **Security quality and coverage**
- **Credit facility type and tenor**
- **Risk based pricing**
- **Global interest / financing rates environment**

Generally, lowest rates are granted to corporates with AA rating; robust security; and short term credit.

Please note that specified rates do not indicate a commitment by the banks to charge customers at those rates as the interest / financing rates may vary according to the criteria above and market conditions. For further inquiry please contact the respective bank.

Lending / financing rate is the bank rate that usually meets the short-and medium-term financing needs or private sector. The rate is normally differentiated according to creditworthiness of borrowers / customers and objectives of financing. The terms and conditions attached to these rates differ by country, however, limiting their comparability.
